"It is my mission to spread awareness about homeopathy and extend its boundaries to create a healthy society. There are also many misconceptions about homeopathy that are prevalent. I also want to work towards eradicating those. Another goal that I strive towards is bringing superior diagnostic skills and planning to India at the earliest so our society can reap its benefits. For the upcoming homeopathy doctors, I would like to say that Innovative thinking is extremely important and it must be properly molded to achieve success. I believe that precision is most essential in the field of Homoeopathy. It is the abilities, knowledge & experience and the ability to update yourself that leads to the success of the organisation and the field of homeopathy," said Professor Dr Bhasker Sharma.

Dr Bhasker Sharma' work is revered across nations and it can be seen in the diversity of people that come to attend his lectures. He holds several international records, has published many research papers and has also been conferred with various acclaimed international awards some of which include Dr. Samuel Hahnemann International Award London - the most prestigious award in the field of homeopathy. He also holds the record for authoring 82 books on Homeopathy.
