Contributor: Anet Režek Jambrak

Anet Režek Jambrak is a Professor at the Faculty of Food Technology and Biotechnology of the University of Zagreb. She has been serving as a scientific advisor in food engineering (biotechnical sciences) since 2018. From 2019, she is the head of Laboratory for sustainable development. She was trained at Coventry University, UK and at the University of Avignon, France. Her field of research is food chemistry, food physics, nonthermal processing, advanced thermal processing, sustainability, food processing, Industry 4.0, digitalization etc. Since 2007, Anet Režek Jambrak has published over 100 significant scientific papers with citation more than 2250, (h-index 25) and is an author of book chapters in recognized scientific publishers like Wiley, Elsevier, Springer etc. She received several prizes and awards; in 2019 she received the title of Highly Cited Researcher, among 0.1% world scientists, and a national award for Science, Parliament of the Republic of Croatia, Ministry of Science and Education, Government of the Republic of Croatia; in 2016 she was awarded Young Scientist Award and in 2011 Award to young scientist “Vera Johanides”, Academy of Technical Sciences of Croatia. In 2010, World renowned Journal of Food Engineering Elsevier: Journal of Food Engineering, recognized her for highest cited papers.

She is a member of Global Young Academy (GYA) and International Academy of Food Science and Technology.

2018 Professor

2013 Associate professor

2011 Senior research scientist

2010 Research scientist**2009 Assistant professor**

March 2009, habilitated “Experimental methods in determination of phase transition temperatures – DTA, DSC”

2009 Research associate**2004 Young researcher***Education:***2008** Post graduated study Ph.D:

University of Zagreb, Faculty of Food Technology and Biotechnology

Thesis: **Ultrasonic effect on physical and functional properties of whey proteins**

2002 Graduate study, MSc, University of Zagreb, Faculty of Food Technology and Biotechnology

*International educations:***2009** University of Avignon, France

Research field: Microwave and ultrasound extraction of bioactive compounds (invited researcher)

2006 Winner of the scholarship from France government in Croatia. Compiègne, France. Research field: Application of pulsed electric field in juice extraction from fruits and vegetables and their texture stability (processing in food industry).

2005 Winner of the 'British Scholarship Trust' scholarship. Research in Coventry, United Kingdom Research field: Application of high and low intensity ultrasound in food science and technology research (processing in food industry).
